ART ASSIGNMENT week 1: On computer paper, create a drawing of a beach scene using ONLY cool colors.

Remember cool colors are blue, green and violet or purple.

Things to remember: They can have different values (how light and dark the color is, so you can use light blue and dark blue and all the shades in between, and the same can be done with green and violet). The colors can also be mixed in order to create a new color. For example, the blue and the green can be mixed to create a blue-green or aqua color and so on.

Remember to also color the entire paper.
