

Distance Learning with Mr. Lozano

Parents/Guardians,

In the case that M-DCPS schools transition into Distance Learning (learning from home) as a precaution against COVID-19, Math classes will be iReady lessons/ Reflex and Science/Social Studies will be on Edmodo.com.

Please be advised that the following only goes into effect if M-DCPS reports that schools will be closed because of COVID-19.

Math

Students will log into iReady through their student portal. In iReady there will be *Teacher Assigned lessons* with due dates that must be completed. **Students must complete 30 minutes of iReady every day.** This progress will be tracked.

In addition to iReady lessons, students must login to Reflex. Reflex is also available to students through the student portal. Username and passwords for Reflex should be the student's ID number. **Students must obtain three "Green Lights" per week in Reflex.** Green lights are awarded when students answer a certain amount of questions correctly.

Science

Students must sign up for an Edmodo account (www.edmodo.com) and join my Science class using the code: **9kgkf2**

Edmodo will have assignments that students must complete along with readings, notes or articles. **Students must check Edmodo daily** because there will be different assignments and materials for them to use. Students will also be provided with a login for GIZMO, which is a website accessible through the student portal. GIZMOs are virtual labs that students will use to complete lab reports. All of this information will be repeated on Edmodo.

Social Studies

Students must sign up for an Edmodo account (www.edmodo.com) and join my Social Studies class using the code: **c3v8ka**

Again, Edmodo will have all of the assignments for Social Studies. The chapters from your child's textbook will also be posted as a pdf so that they may reference it and have everything they need in one place. **Students must check Edmodo daily.**

Thank you!
